Seminario Avanzato di Epigrafia Greca (SAEG X)

Università degli Studi di Salerno, 14-16 gennaio 2027

Dear Colleagues,

The *Advanced Seminar in Greek Epigraphy* (SAEG), is about to meet for the tenth time (following the first two Seminars held at the University of Bologna and the subsequent meetings hosted by the universities of Naples, Milan, Turin, Venice, Rome "Sapienza", Perugia, and Roma Tre), and has become a well-established event. For the academic community it is an important occasion for scholarly exchange and dialogue on issues pertaining to Greek epigraphy.

Within the field of epigraphic studies, the SAEG constitutes a highly significant forum, characterized by the lively and constructive working atmosphere that has distinguished it since day one. The seminar was originally conceived by T. Alfieri, C. Antonetti, L. Boffo, L. Criscuolo, E. Culasso, and E. Miranda, who brought this initiative into being and have continued actively to nurture its development.

In 2027, the **University of Salerno** will be responsible for organizing **SAEG X**, scheduled to take place on **14–16 January 2027**. In keeping with tradition, the primary aim is to devote ample space to presentations by early-career researchers, whose contributions will be complemented by those of more experienced scholars.

All those wishing to propose a paper for SAEG X, on any aspect of Greek epigraphy from its origins to Late Antiquity, are invited to submit their **application** by **15 June 2026** to saeg@unisa.it, indicating the title of the proposed paper and attaching an **abstract** of no more than 250 words, together with a very **brief curriculum vitae**.

Depending on the number of submissions received, the possibility of opening a poster session will be considered; should this occur, a further circular will be issued.

Additional and detailed information regarding the conference venues and the final program will be communicated at a later date.

For all information, please refer to the conference website: www.saeg2027.it

I will take this opportunity to wish you all a peaceful and productive New Year.

University Campus of Fisciano (Salerno), 19 January 2026
